

Sweets and treats were provided for children and their families during Dia del Niño.

Monthly Recap (data from April 2022)

6,544 meals served and/or provided to Sonoyta shelters *

391 medical and vaccination appointments provided

120 families with children celebrated Dia del Niño at the center

Visiting families and children played games in the center courtyard.

Shelters for Hope volunteer, Mimi Phillips painted children's faces during the day of celebration.

The month of April at Centro de Esperanza was highlighted by Dia del Niño on April 30. A total of 120 families with children celebrated the national Mexican holiday with sweet cakes, face painting and lots of games. "It was really a Sonoyota community project," said Aaron Flores, one of the managers of the center, "Sonoyota residents provided food, entertainment, presents, piñatas and more. We are so grateful for the generosity of the people of Sonoyta."

Centro de Esperanza continued the important work of providing meals, medical appointments, clothing, hygienic supplies and more to center visitors and migrants temporarily living in Sonoyota-area shelters.

On April 1, Centro de Esperanza held a vaccination clinic at the center and on April 21, facilitated a clinic at the men's shelter, Casa del Migrante, concluding the month with over 391 medical and vaccination appointments.

Looking ahead at the month of May, Shelters for Hope recognizes the potential termination of Title 42 and is preparing for the possible increase in center visitors in need of assistance.

Visiting nurses prepare paperwork and vaccines during the April 21 vaccine clinic at Casa Del Migrante migrant men's shelter.

Tortias de papa, one of the many delicious meals prepared at the center for visiting migrants.

Thank you to our generous donors!

From organizations such as No More Deaths/No Mas Muertes and Humane Borders, to our individual donors, Shelters for Hope thanks you for your continued support.

**Please note, the April e-newsletter monthly update undercounted the number of total meals served or provided to migrants. The data reported did not include the meals being financially sponsored by Shelters for Hope at the Casa Del Migrante and Casa San Pedro shelters. We apologize for our mistake!*
